Community Outreach

Creating a space for our community to come together to share their experiences and feedback and to ask questions is important. We are listening and learning from survivors, allies, and the broader community of alumni, parents – past and present, independent school peers, and other concerned parties.

- We are **meeting individually and in small groups** with those who have expressed interest in sharing their experiences and views. Please continue to reach out to CCA Trustees via [CCAtrustees@cate.org](mailto:CCAtrustees@cate.org). You can also find a complete list of the CCA members [here](#) in the event you would prefer to contact an individual Committee member. We want to hear from you.

- The School and the Board hosted a series of **Community Conversations** to bring people together for dialogue. These virtual group sessions, guided by a professional experienced in trauma and trauma-related healing, aimed to foster dialogue in a safe environment where the voices of all community constituencies could be heard.

- As COVID-19 protocols allow, our intention is to **organize in-person opportunities for Community Conversations** across the country. Our greatest hope is to bring these discussions to the Mesa as soon as this summer at Camp Cate, where we may all continue to connect and learn together.
